

...HELPING YOUNG PEOPLE BECOME 'MASTER CHEFS' of the hamburger way of speaking their point of view...

*Speaking with their voices,
From deep within their souls.
Leading with their choices,
Achieving more than goals.*

...this is what people observe students are doing when they are participating in our **Step Forward** and **Leading Alongside** leadership and public speaking experiences. Their own inspirations and efforts can seal real change, spark a growing awareness and settle old fears.

In giving feedback about the course, here are a few of many responses from some Year 8s:

I believe it will really help me in a lot of situations. It will help me in the workplace and school. It will help me pitch my ideas to others and make more of life. – Sarah B.

"...help in my public speaking for orals and in the set up of a speech and the many methods on helping speaking..." – Alex W.

"I would say that it is a fantastic course that is extremely beneficial for the long run. It's great to have some of these new and developed skills just waiting for me to put into action. It's interesting and fun." – Alex S.

STEP FORWARD for Years 6 and 7

LEADING ALONGSIDE for Years 8 to Year 12.

Can be adapted to suit context of individual schools and students.

Students are encouraged to explore a range of topics, but mainly around leadership qualities, by speaking to the group.

Tried and true methods and content are provided to them to increase their listening, speaking and general communication skills:

Positive Descriptive Recognition feedback method, planned and impromptu speech structures, and audience engagement.

Enthusiastically endorsed by participating schools. Join them!

Attitude, that has attitude, self-awareness and self-discipline, are ★ performers!

I highly recommend this program! It provides features and benefits for students and the school. Communications improve; they listen and speak better. The Leadership skills change their future! Magda Pisotek, Coordinator, Mount Lilydale Mercy College
