

Like all real leaders, we hope you are listening!

Leaders are not always born. They are most often created, when sound and true foundations are given to them. For young leaders to develop into effective older leaders, a clear sense of purpose, *attitude that has altitude*, self-awareness and self-discipline need to be encouraged. In a world where leadership is needed more than ever, here is a program to give your students another opportunity to grow.

LEADING ALONGSIDE

...is a Youth Leadership Development course, especially created for years 8 to 12.

Based on the *Spine in the Brolly* character-building approach to leadership, students are encouraged to explore a range of topics and indispensable leadership principles, actions and attitudes, and share their viewpoints and feelings.

An empowering and supportive coaching attitude within a teaching and training framework, is employed to encourage participants to communicate their ideas and viewpoints because of enhancing their speaking skills.

There is focus on topics that relate directly to students' real, immediate and future workplace worlds. Concepts and activities are adapted to suit the ages, needs and situations of participating students.

A welcoming, student-centred guidance program.

"Don't judge each day by the harvest you reap, but by the seeds you plant."
Robert Louis Stevenson, 1850-1895, Essayist, Poet and Novelist
